MATERIALS

- Frame in 304 stainless steel, powdercoated with an ultra durable polyester coating.
- Back in weaving with Tricord® on an aluminium powdercoated frame. The backs can be replaced individually. Tricord consists of an indestructible polyester core and an outside covering of weather resistant polyolefin. It is the ultimate combination of the strength of polyester and the natural look and feel of polyolefine: strong on the inside, soft on the outside. Tricord is exclusively designed for Tribù and is UV- and rot resistant.
